JOHN HOWEY C. P. HAYES
Managing Editor Business Manager

FRIDAY, FEBRUARY 16, 1912.

Canada has not yet saved the Mother Land by a cash contribution to the up-keep of the navy.

A third member of the civil service commission is to be appointed. The big job hunters are all on the job.

The Provincial officers have been punishing up unlicensed sellers of whisky in the railway company west of Edson. The catch was large and the punishment seems to have been made "to fit the crime." The fines imposed ran as high as \$200 for one offence. Another is to spend three, and another four months in the Lethbridge jail. Where this kind of business is made too dangerous to be attractive it sometimes comes to light to soon cease in the railway belt.

The Regina-Tender points out that during the fall and up until Christmas fourteen hundred cars returned empty to the United States as after being sent to Western Canada with goods of various kinds. It also says that at the present time from forty to fifty "empty" returns to the United States daily from the Canadian side of the border. How much weaker would the Empire have been, or how much weaker would Canadian loyalty have been if these three thousand cars had been filled with the wheat that is now lying in the fields?

The Province is to assist farmers to recover damages from railway companies for stock killed on the tracks. A claim agent may be appointed to act under instructions from the Minister of Agriculture and on behalf of the farmers. The man whose means are limited has a natural and understandable hesitation about challenging in court the legal skill and limitless resources of a railway company, even when he is confident that he has a good claim. No matter how good his case, the company by appealing to higher courts can wear out his patience and his purse, and in the end force him to accept their price of settlement. The Attorney General is to attend on Wednesday that when a farmer is shown to be in a good case the Government will prosecute his claim against the railway company. The departure is now one, but it should do good. It is doubtful if the Government will really have to fight many claims, if any. The knowledge that the Government is behind the farmer will likely bring the railway company into a disposition to settle rather than to litigate.

The Montreal Star objects to the tariff commission. It is intended as a means of humbugging the public. The Star's objection, however, does not alter the facts. The facts are that a body of men are to be placed in an irresponsible position and given the power to recommend tariff alterations in the upward direction to the Government. They are to be in agreement with the tariff views of the ministers. They are to be under the immediate direction of the Minister of Finance as to what they investigate and do not investigate. It follows as day night that their investigations will be so directed and so made as to show that tariff increases are necessary, rather than to show that tariff reductions might be made with good to the public through the disadvantage of a handful of manufacturers. It also follows—politics being politics—that when applications for tariff reduction is made the Ministers will be deluged with information against their request, the tariff will not be reduced, and the Ministers will lay the responsibility for not reducing it upon the shoulders of the commissioners, who do not have to answer for their recommendations at the polls.

WHY NOT BUILD SOME RAILWAYS?

If, as the Opposition claim, the C. P. R. company is so willing—so very anxious even—to supply the people of Alberta with railway facilities why does not the company go ahead and do it? There is no bar to the company starting a railway building campaign any time they feel like it, carrying it on with all the energy of their excellent credit and splendid organization, and keeping it up as long as they are in the mood. Nobody is preventing them building railways, and no-minded individual wants to prevent them doing so. They can get all the charters to build railways they want, either at Edmonton or at Ottawa. At neither of these cities is there a political party lined up to prevent them getting permission to build railways—there is at Edmonton a party lined up to prevent their rivals getting permission. If the C. P. R. want charters they have only to ask for them. If they want money they have only to ask for it, too. The credit of the company is the best. They can get all the money they require, and at the best rates going. So good is their credit that they do not even ask for Provincial guarantees of their bonds. One of their arguments when a number of the legislature explained that the company would rather not accept assistance from the Province as this would bring them more under control of the Provincial authorities. But if the company have changed their minds and would now like Provincial assistance, the Government and the Legislature would do nothing to prevent it. The same assistance as is given to their competitors, on the same terms. With all the charters they want for the asking, and all the money they want for the asking, what are the C. P. R. people waiting for? Why let themselves be tortured by a consuming anxiety to supply the people of this Province with railway facilities, when they have the power to build these railways and so relieve their own harassed benefactors. It is very good of the C. P. R. officials to intimate that they sympathize with the public need of railway facilities, but it is not sympathetic if the public need, but railways. If the company will only build the railways they may save their sympathy, for it will not be needed. The truth of the matter is that the C. P. R. Co. have not been living up to their opportunities, nor to their obligations to provide the people in the century tributary to their system with the necessary railway lines. The prayers for mercy which are now coming from their apologists in the Legislature only serve to call attention to the fact that the greatest of Canadian railway companies, have been "soldiering on the job," and that sooner than plunge in now and help to set-work Alberta with railway lines they prefer to wait because they have not been given a preserve from which their rivals were excluded and in which they would be allowed to build or not build as they saw fit. If the C. P. R. want to build railways in Alberta they will have to do it under competitive conditions, for there will be no "preserve" set aside for them. The federal Government is in power at Edmonton. If the company are serious in their professed willingness to take a hand in the good work of equipping Alberta with

INGERSOLL CREAM CHEESE

YOU will actually be surprised at the number of delicious and appetizing dishes you can make with Ingersoll Cream Cheese. Try the one and you will find it really good and you will find it.

NEWS OF SPORT

SUMMARY OF THE DAY'S NEWS

HOCKEY—Varsity defeated Lacombe by a score of five to four—Taher defeated St. Mary's in a game forfeited before play started—Ottawa lost out not likely to be granted affiliation—Edmonton team drove the regular team to a 10-0 victory in the provincial championship.

CURLING—Draws and results at the local "tanks"—Record of the Scotch curling team in the Winnipeg league.

NEWS AND VIEWS

We have heard of the Calgary team that the province of the Alberta team of that city. We have heard that the Edmonton team drove the regular team to a 10-0 victory in the provincial championship. We have heard that they were going to challenge the team for the Allan cup and take it. Various other things we have heard and wondered at.

The result of the game between the Maritimers and that much-touted team with somewhat educational. The Calgary Herald boasted the Maritime team as being an all-around team. The Calgary Herald, which was not the case. In fact, it was the team of the regular team. Even with two men unaccounted for, the team of that city, which they played the heads of the A. C. team for \$5.00 of the six minutes of the game, and lost only in "time" play.

Remembered by the side the showing made by the Maritime team in Calgary in their weakened condition with the showing made by the same team when it was at its best against the Edmonton. If we remember rightly they were beaten by a score of six to one. Although they fought hard and played a good game.

Since that time the Eskimos have improved greatly. They have worked their combination down to a science, and increased their speed and endurance by better conditioning.

These facts indicate to some extent that the Eskimos are a slightly stronger team than the Calgary Athletics Club.

A week or ten days ago the Southern Alberta Hockey League applied to the Alberta Amateur Athletic union of those for affiliation. The league had in the intention of Secretary Baines to take a mail vote of the members to decide the question as to whether or not to affiliate.

Before questioning their right to be affiliated, the examination of their constitution reveals the fact that the purpose of the league is to decide the championship of Alberta. The Amateur Athletic Union of Alberta has already granted affiliation to the league, and with jurisdiction over the right to decide the provincial championship. The league has already decided to affiliate with the Southern League whose avowed purpose is to decide the provincial championship would be infringing upon the right already granted to the other body. The same privilege cannot be granted to two bodies.

Had the Southern Alberta Hockey League only claimed local jurisdiction and the right to decide local championships, it might have been granted affiliation with the governing body without question.

In the championship of Southern Alberta and the right to play the Edmonton team for the provincial championship.

PORT ARTHUR WINS LEAGUE

Western Associated Press.

An Exquisite English Coronation Souvenir

In England, we, the makers of "Black Cat" Cigarettes, have just given our patrons 100,000 beautiful cigarette cases.

These cases are of almost priceless value—because of their unique beauty and because they commemorate an event close to the hearts of British subjects.

At a cost of many thousands of dollars were these cases made. Embellished on each, and inset in colours, are the portraits of the present rulers of the British Empire.

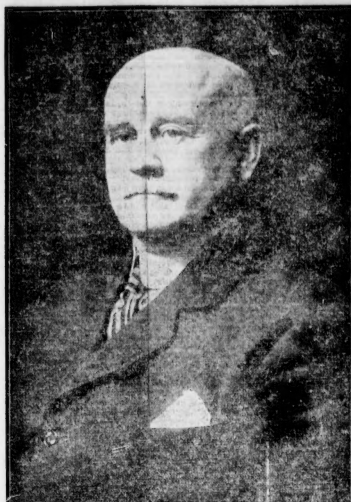

The workmanship is British workmanship, and the money paid for them represents British capital.

It is now our intention to distribute these exquisite souvenirs among our Canadian

smokers. 50 coupons will make you an owner of a Coronation C

A Greater Mayor ^{FOR} Greater Edmonton

The People's Candidate
for Mayor

The People's Candidate
for Mayor

Mayor Armstrong said in Strathcona last night that the water problem could only be solved by a competent engineer, then

VOTE FOR BRYCE J. SAUNDERS

Why You Should Vote for BRYCE J. SAUNDERS for Mayor of Greater Edmonton

Because

It is apparent that the City has not pace with the development of the Community. During the last administration, bickerings in the city government caused the municipality to get out of stride, and fall behind the general progress of the community at large by one whole year. This is Mayor Armstrong's admission.

Edmonton is entering upon the most important and trying year of its career, that of amalgamation. Details that are not properly worked out this year will have to be paid for in losses and painful readjustment in the years to come.

The present head of the administration has spent his time in making excuses for the various utilities. He has blamed the inefficiency of the lights, water, street railways, and everything else on Engineering Problems.

Edmonton owns more public utilities than any other city in North America. Some are losing money; none are giving satisfaction. They have not been satisfactory investments to you as stockholders in the municipal corporation.

Amalgamation is going to greatly increase those problems this year.

If there has been anything accomplished during the past ad-

ministration, Mayor Armstrong claims all the credit; but for all of the glaring mistakes, failures, and inefficiency, he lays the entire blame on the commissioners, although he himself was chairman of the board.

At the end of a year's administration, Mayor Armstrong presents the citizens with a report of successive failures and deficits supplemented with a series of wordy excuses.

What Edmonton needs in the Mayor's chair is not a clever excuse maker, but a man whose executive ability, training and experience place him in the forefront of Canada's best and most successful men.

Bryce J. Saunders has made his career by facing and solving problems similar to those which have baffled the head of the present administration.

He believes in DEEDS not EXCUSES.

What Edmonton most needs is Co-operation in its government, and NOT EXCUSES AT THE END OF THE YEAR.

EXCUSES do not take the place of EFFICIENT SERVICE.

Mr. Saunders says: "I believe that the new commissioners are good, capable men. I want to help them. I have had a lifetime's experience in every branch of engineering, and have successfully dealt many times with the very problems which confront Edmonton today. I want to work WITH and HELP the commissioners.

"Moreover, I believe in letting every man who has enough faith in Edmonton to make his home here have a voice in the Government. The voting privilege should not be restricted to those who hold the land. Their interest is not necessarily greater in the city's welfare than that of the man who is making the land valuable by his presence here.

"I want to encourage and help the workmen and new-comers in every way possible.

"WHAT EDMONTON WANTS IS PEOPLE

and

EDMONTON SHOULD TAKE CARE OF ALL HER PEOPLE.

"Mayor Armstrong says that the reason there is a deficit in the city's utilities is that coal costs so much. Then, I say, LET THE CITY OWN ITS COAL SUPPLY.

"I believe in public ownership of utilities, and am not pledged to any private or corporation interests.

"If elected Mayor of Greater Edmonton, I will conduct the public's business as I would my own private business, and place its utilities on a PAYING BASIS, avoiding the blunders of the present administration."

Yours faithfully,

Bryce J. Saunders

ADVISES NETWORK OF LINES IN H.B. RESERVE

Street Railway Superintendent Places Maps of Proposed Extensions Before Commissioners.

WOULD INVOLVE BIG CAPITAL EXPENDITURES

Board of Commissioners as Yet Have Taken no Action Approving the Plans.

The city commissioners yesterday received a map on which Street Knight, of the street railway department, had sketched a suggested layout for the central portion of the railway system in Greater Edmonton. In a letter accompanying the map is urged that the development of the central section of the city known as the Hudson's Bay reserve, was an element of great importance to the department and the extension of the reserve should be encouraged.

After the meeting, Commissioner Candy said the plan outlined by Superintendent Knight had not been accepted by the board and he believed it would be poor policy to give publicity to the additional street railway lines proposed, for the reason that unfair advantage might be taken in

TENANTS' FRANCHISE AMENDMENTS PASS.

The tenants' franchise amendments to the city charter, and an amendment making a woman eligible as a candidate for the school board, were passed by the Legislative Assembly this afternoon.

The tenants' franchise amendments give all roomers, whether male or female, the right to vote at municipal elections.

real estate circles. The proposition involved the expenditure of several million dollars and probably would not be reached for some time to come, Commissioner Candy said.

Other Business Transacted.

Superintendent Knight, of the telephone department, advised the commissioners that he had employed a Mr. Welch and recommended the latter be sent to Chicago to gather information about installing and maintaining branch telephone exchanges.

A communication was received from Chief of Police Langer stating that he considered Constable Schreyer an efficient officer and that the serious letter from a man, who protested

ed against the constable, could not possibly affect his opinion. Chief Langer asserted that he should not be called upon to reply to letters of this nature.

A letter was read from S. C. Graham, of Los Angeles, asking for information as to how Edmonton stands many other cities, deals with the question of the indigent unemployed. The letter was sent at the instance of the mayor of the southern California city, who, it seems, had quite a problem on his hands in connection with the army of unemployed. Justice of the Peace Tarabell will be requested to look into the matter so far as it has any application locally and report to the commissioners.

Munitions Works Compensation.

Cornack & Mackie wrote to the board asking what consideration the city was prepared to give to the claim of a Smith for alleged damages arising from an accident that happened to him several months ago while he was employed as a workman on the car line running from Alberta, ave. to the packing plant. Smith was caught between two cars and apparently injured, according to the lawyers' letter. Referred to the street railway department for report.

The waterworks department suggested that a file of from 16 to 35 be fixed for having out service on the south side until such time as the city places a man in charge of the work there. The commissioners, however, declined to make the rule the same as on the north side, which is 35.

CROWN PRINCE A COLONEL.

Kaiser to Appoint Son to Command of Russian Grenadiers.

Berlin, Feb. 15.—The Kaiser, it is understood, intends next month to appoint the crown prince colonel of the first Prussian Grenadier regiment stationed at Konigsberg. The crown prince has been in high disfavor with his father since his demonstration in the Reichstag on the occasion when the chancellor defended the government's action in sending a warship to Morocco, and the appointment is a mark of his father's forgiveness.

The ceremony will take place at Konigsberg, March 15th, the birthday of the prince's great-grandfather. The Kaiser will attend and present his son to the Grenadiers as their colonel. The prince now commands the Hussars and his new appointment will familiarize him with the leading and commanding of infantry.

PORT CHURCHILL NEXT TO TERMINUS.

London, Feb. 15.—Peacock Bros., of Plymouth, have secured the contract for building the docks and granaries at Port Churchill, on the Hudson Bay. The work will cost one million and a half pounds.

The work will be started within three months and the contractors are expected to complete it within three years.

NO DIVISION ON BILL TO PAY C.T.P. \$10,000,000

Hon. W. T. White's Bill Giving Effect to Treaty Council's Decision Passed by House of Commons—Cost of Road is Justified by Sir Wilfrid.

Bulletin Special.

Ottawa, Ont., Feb. 14.—Hon. W. T. White's bill authorizing the payment of approximately \$10,000,000 to the C.T.P. was given a third reading in the House of Commons today without division. The bill, which was introduced by Sir Wilfrid Laurier, provides that the government should guarantee the bonds of the company on the profit section up to three-quarters of the cost of construction, not to exceed thirty thousand dollars per mile. Owing to the delay in passing the bill and the consequent hammering of the price by the then Conservative opposition, the market value of the bonds was so affected that they did not realize such value. It therefore became necessary for the company to ask parliament for further aid, and a supplementary act was passed by parliament in 1904, whereby the government undertook to implement the guarantee bonds, so that the proceeds would amount to 75 per cent of the actual cost of construction, not to exceed thirty thousand per mile.

After the act was passed, a difference of opinion arose between the company and the government, the government holding that the implementing should be done by a further guarantee of bonds, the company arguing that it must be done by cash. The question was taken to the Supreme Court, which decided in favor of the government. The company appealed to the Privy Council, which reversed the Supreme Court decision and gave judgment in favor of the company. Mr. White's bill gives effect to the Privy Council judgment.

Sir Wilfrid Laurier said, he was willing to accept the responsibility.

Hon. Frank Cochrane's bill reducing the number of transcontinental commissioners was allowed to stand. The minister said the road would cost over one hundred and forty thousand dollars per mile. If, D. Ames declared the road could save out freight rates, because of the great cost.

J. G. Turill showed that the great cost had been incurred simply to allow the cheap hauling of grain.

Electors by Ballot in P. E. I.

Charlottetown, P. E. I., Feb. 15.—The first election by ballot in years resulted in the election of Chas. Lynde as mayor. Three water commissioners elected were S. W. Crabbe, C. S. MacGregor and James MacDonald.

LEAVES TORONTO ON SUNDAY.

New Exhibition Manager Will Start for Edmonton on That Day.

Toronto, Ont., Feb. 14.—W. J. Shaw, manager of the Canadian National Horse Show, has resigned to become manager of the exhibition at Edmonton. He will leave Toronto Sunday evening for Chicago, where he will manage attractions for his year's fair. He will go from there to Winnipeg and thence to confer with the managers of the local exhibitions regarding co-operation plans. Captain Douglas Young will succeed Mr. Shaw in the office of manager of the horse show.
